Hi Gary,
The other name I received at EPA Region 6 is Carol P. Wagnon.
We would like to plan to come to the site between 9:30-10 am tomorrow (Tuesday) morning. My boss (Walid Samarneh) and Clyde will attend also. Please confirm that you will be there to meet us.
Best,
Allison

Hi Gary,
The only name I received so far regarding the enforcement case is Ted Palit, Environmental Engineer, Region 6 Enforcement. He initiated the action but I'm still trying to find out who is involved now.
We might come out there to see the site tomorrow morning.
Also, we would probably need to establish an agreement for the acceptance of storm water from the CES site that is similar to our agreement for the acceptance of contaminated stormwater from the US Oil Recovery site. Adam Adams is involved with that.
Best,
Allison
